

Dear Patients:

Many of you have received letters regarding your physician's departure from their former practice location. Times like these can be unsettling and lack of information can make things worse. The purpose of this letter is to give you up to date information.

The doctors at Three Rivers Medical Associates and The Medical Place Family Practice are excited to announce that we have gone back into private practice. We have been providing exceptional quality, patient centered primary care in the Midlands since 1993 and we look forward to continuing to do so.

Good communication and access to your doctor will be our top priority. Our practice is owned locally by the physicians. We will have three offices conveniently located to serve you. All offices can be reached by one phone number:
